## OBJECTIVE

I am a recent Information Technology graduate (2025), majoring in Computer Science and Informatics, with hands-on experience in full-stack web and mobile application development. Strong foundation in JavaScript, React, React native, Node.js and SQLite. Passionate about problem-solving, learning new technologies, and contributing to collaborative development teams in an entry-level software or IT role.

---

## TECHNICAL SKILLS

### Programming Languages:

- Proficient: Java, JavaScript, SQL, Visual basic
- Academic Exposure: C++, Python

**Frontend Development:** React, React native, HTML5, CSS3

**Backend Development:** Node.js, Express.js

**Database:** SQLite

**Tools and Platforms:** GitHub, Expo, VS Code

**Development concepts:** CRUD Operations, REST APIs, Authentication, Data Validation

**Operating Systems:** Windows, Android

---

## PROJECTS

Final Year Project- Web and Mobile application (2025)

- Designed and developed a full-stack web and mobile application using React, React Native, Node.js, and SQLite
  - Implemented secure user authentication and authorization functionality
  - Developed CRUD operations for efficient data management
  - Integrated frontend interfaces with RESTful backend APIs
  - Applied data validation, error handling, and basic security best practices
  - Used Git and GitHub for version control and project collaboration
  - Produced basic technical documentation to support system usage and maintenance
- 

## CORE COMPETENCIES

- Problem Solving
  - Willingness to Learn
  - Team Collaboration
  - Time Management
-

## CERTIFICATIONS AND TRAINING

- JavaScript Fundamentals – Self-Study
  - React & React Native – Project-Based Learning
  - Web Development Fundamentals – Online Learning
- 

## PRACTICAL EXPERIENCE

- Developed and tested application features for academic and personal software projects
  - Assisted with debugging, improving functionality, and optimizing user experience
  - Gained experience working with client-side and server-side components
- 

## EDUCATION

### Bachelor of Science in Information Technology

**Major:** Computer Science and Informatics

University of Johannesburg

Completed: November 2025

Average: 60%+
